Dr. :

Due to inquiries and audits from the NH Board of Pharmacy, DEA , State Police, as well as other stakeholders in the supply chain, pharmacies are coming under increased scrutiny regarding the validity of "off label" use of treating patients with plain Buprenorphine.

In order to respond to future audits and investigations, we will need to have documentation of the justification for using plain Buprenorphine versus the Buprenorphine/Naloxone combination products available on the market.

Best practice would be to have this documentation on each prescription, however to make sure we have done our due diligence, we will ask that this be filled out once for each patient.

Patient: \_\_\_\_\_ DOB: \_\_\_\_\_

Diagnosis / ICD10 \_\_\_\_\_

Do you check the PDMP 100% Yes / No, if No, please explain why you don't

Reason for using Single Entity Buprenorphine ( check all that may apply)

Allergic or negative reaction to Naloxone ( Documentation on file is recommended)

Insurance has Denied Buprenorphine / Naloxone and covers Buprenorphine

Cost

Other (please explain)
